Knox-Box Requirements

Definition

Knox-Box (Key Vault/Box): A secure, tamperproof device with a lock operable only by a fire department master key, and containing building entry keys and other keys that may be required for access in an emergency.

When Required:

Where access to or within a structure or an area is restricted because of secured openings or where immediate access is necessary for life-saving or fire-fighting purposes
-Or-

Any structure that contains an automatic fire alarm system, automatic fire sprinkler system, commercial hood suppression system, or other fire suppression systems.

Key Box Maintenance:

The operator of the building shall immediately notify the fire department and provide the new key when a lock is changed, added or re-keyed. The key to such lock shall be secured in the key box.

Purchasing:

The Fire Marshal must approve all types and quantities via written approval.

Knox Box systems can be purchased online at the Knox Company www.knoxbox.com/store
or 1-800-552-4669
