<p><i>Description: Requesting permission to add a 2nd garage to our home. It is exactly like the upgrade available with the builder for this plan, unfortunately, we were unable to get this upgrade as the builder did not agree to make any structural changes during our purchase.</i></p> <p><i>This will be a stand-alone garage to the right side of the home and will be attached to the existing right exterior of the home along with the extension of the existing drive way to facilitate entry to the new garage.</i></p> <p><i>The rationale of the request: We have now transitioned to a 2-car family and have a toddler at home, it is becoming very difficult to park both cars within the existing garage while also having to keep his bikes, toys, and lawn care equipment. We therefore need the additional garage to make space for the current needs.</i></p>
