	<i>Description: I would be using just a wood fence with metal posts. Due to the recent storms, one side of my property's fence has been completely damaged and has fallen down. Given the extent of the damage, I would like to take this opportunity not only to rebuild the affected portion but also to extend the fence for better privacy and security.</i>						
	<i>I kindly request your approval to proceed with this work. I will ensure that the new and extended fence complies with all relevant guidelines and aesthetic standards.</i>						
	<i>Please let me know if you require any specific details such as the proposed dimensions, materials, or plans. I'm happy to provide them.</i>						
	<i>Thank you for your consideration.</i>

<i>Description: PLACE A BLUE connector 24 PORT TERMIANL with 1k tail, place 1 2x3x2 HH and capture SOC</i>							
<i>Per Silas White -We have completed all of the bore for this project with the exception of the bore across the high pressure gas easement on PGA &amp; Paramount. The customer SOC/HH was not in place so no fiber has been placed to the building. ATMOS has the gas line &amp; they are now requiring a LONO to cross their line. The process is very different than in the past. Kelli Ervin, ATT engineer is aware of the issues on this one. They need their gas line potholed (with their rep onsite), exposed with depth.</i>
