<p><i>Description: Project Description for Permit: Outdoor kitchen installation with flatwork and plumbing</i></p> <p><i>We are planning to install approximately 160 linear feet of concrete decking. The slab will be 4 inches thick with a broom finish. It will be doweled into the existing house foundation using ½-inch dowels spaced 8 inches on center. Reinforcement will consist of #3 (?-inch) rebar placed 16 inches on center, supported on chairs. A 6-mil plastic vapor barrier will be installed beneath the slab, and the concrete will be a 3,500 PSI mix.</i></p> <p><i>The proposed concrete deck location has been marked in red on the attached survey for reference.</i></p>							

PERMITS ISSUED FOR ACCESSORY: 15

<i>Description: The intent is to operate a youth-focused educational center at 2120 PRAIRIE DRIVE, BLDG. 6,SUITE 601. Our business is dedicated to providing engaging STEAM (Science, Technology, Engineering, Arts, and Mathematics) courses for children during after-school and weekend hours. We are committed to being a low-impact, community-oriented use that complements the existing mix of tenants within the plaza. Our operations are scheduled during off-peak hours—weekdays from 4:00 PM to 8:00 PM and on weekends—minimizing impact on existing plaza parking. Most students are dropped off and picked up by parents, and classes are staggered to avoid overlapping transitions, further reducing parking demand. Additionally, many families carpool or enroll multiple children, lowering the overall vehicle count. We plan to add a bottle filler with cups in lieu of a drinking fountain and respectfully request consideration for increased occupancy beyond the standard office load, as our use is educational and structured differently. We aim to maximize the space's community value while ensuring compatibility with surrounding tenants.</i>

<p><i>Description: Hi - I hope you are doing well. I am submitting a request to extend the concrete area by my garage. Currently, when I back my car out of the two-car garage, there is not enough space, causing one of the tires to go onto the grass when i tried to pull front into the driveway. To address this issue, I am requesting a minor extension to the concrete by the 2car garage as well.</i></p> <p><i>The proposed extension will match the existing concrete in both materials and appearance, ensuring a cohesive look. To provide clarity, I have marked all relevant details using different color coding to indicate the extension as clearly as possible.</i></p> <p><i>I have attached all relevant pictures and the plot map for your reference. Please let me know if additional information or documentation is required. I appreciate your time and consideration.</i></p> <p><i>Thank you, Rajesh</i></p>
