<i>Description: Shipman Fire Protection will be replacing an existing smoke detector located in a garbage room at the property stated above. The current smoke detector has been triggering false alarms due to possible dust and particulate conditions within that space. Shipman suggests reducing the nuisance alarms by replacing the current smoke with a listed heat detector that will be compatible with the existing FACP. According to NFPA 72 17.7.1.11 allows the use of heat detection where environmental conditions exist. No other modifications to the system will take place. To fully comply with the local AHJ the following will be submitted on our behalf.</i>

<i>Description: REPLACE GREASE TRAP AND SAMPLE WELL</i>								
<i>Replacing grease trap -Grease trap is being replaced due to the bury depth. The current poly grease trap has been crushed like a coke can under the pressure of the dirt. Replacing a 1,000-gallon Mifab hydromechanical grease trap with 2,500 gallon gravity grease trap from Park Industries. Concrete trap will ensure its integrity, so we don't have drainage issues in the future.</i>								
<i>Replace sample well - Sample well is being replaced due to failure. We did not pour a concrete apron over this sample well which caused it to bow and become oval shaped. I'm proposing to replace it with a smaller unit, that has the same function. I have attached our originally installed spec sheet as well as the proposed option. I have also attached an email from the manufacturer stating that this is an equal product.</i>

<i>Description: Extend driveway to edge of Sidewalk to allow easier access into garage to prevent driving on grass and to remove vehicles being parked in the roadway. Note. I contacted the city as I was under the impression only homeowners was needed and the work has been complete and was asked to mention that here. I am sorry! I have attached the pictures unfortunately I didn't have of before the poured, but witnessed the metal re-bar (\$450 in materials). This was extensive and he drilled into existing patio to connect the new re-bar at several locations! I did notice before pouring little cones throughout and asked he said to lift off the ground!! Again sorry I do not the full requirements. We have been driving on it for 6-8 weeks now with no issues.</i>
