March 9, 2018

To the Honorable Mayor, Members of Town Council, and  
Citizens of the Town of Prosper, Texas

The Town's management staff is pleased to submit the Comprehensive Annual Financial Report ("CAFR") of the Town of Prosper ("Town") for the fiscal year ending September 30, 2017. The Town's management assumes responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is accurate in all material respects. The data is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Town. To enable the reader to gain an understanding of the Town's financial activities, all necessary disclosures have been included.

The Town is required to obtain an annual audit of the books of account, financial records, and transactions of all administrative departments of the Town. The Town's financial statements have been audited by McConnell and Jones, LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Town for the fiscal year ended September 30, 2017, are free of any material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unqualified opinion that the Town's financial statements for the fiscal year ended September 30, 2017, are fairly presented in conformity with Generally Accepted Accounting Principles ("GAAP"). The independent auditor's report is presented as the first component of the financial section of this report.

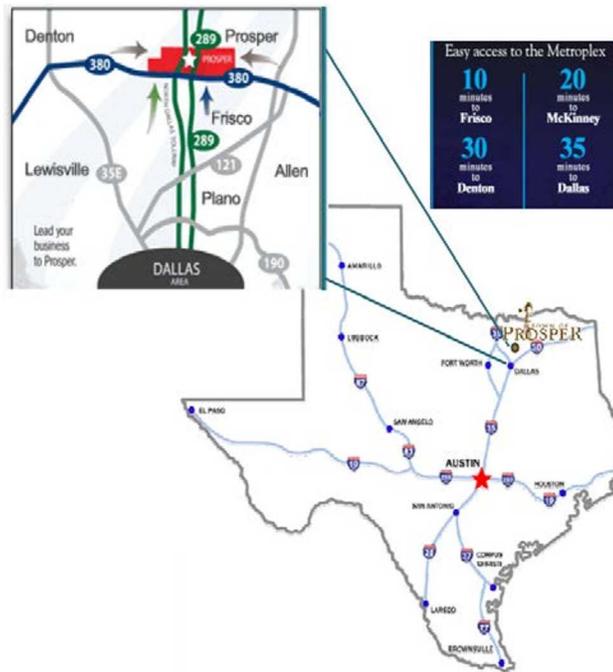

### **The Reporting Entity**

The Town is a political subdivision and a home rule municipality under the laws of the state. A Home Rule Charter was approved by the voters of the Town at an election held November 7, 2006, and revised on May 14, 2011 and May 6, 2017. The Town operates as a Council-Manager form of government with the Town Council comprised of the Mayor and six Council members. The term of office is three years. The Town Manager is the chief executive officer of the Town.

Services the Town provides include: public safety (police, fire protection, and dispatch), and municipal court, public streets, water/wastewater and storm drainage utilities, parks and recreation, library, public improvements, engineering, planning and zoning, building inspections and code compliance, economic development and general administrative services. Some services such as legal and solid waste/recycling are outsourced in full or in part to the private sector.

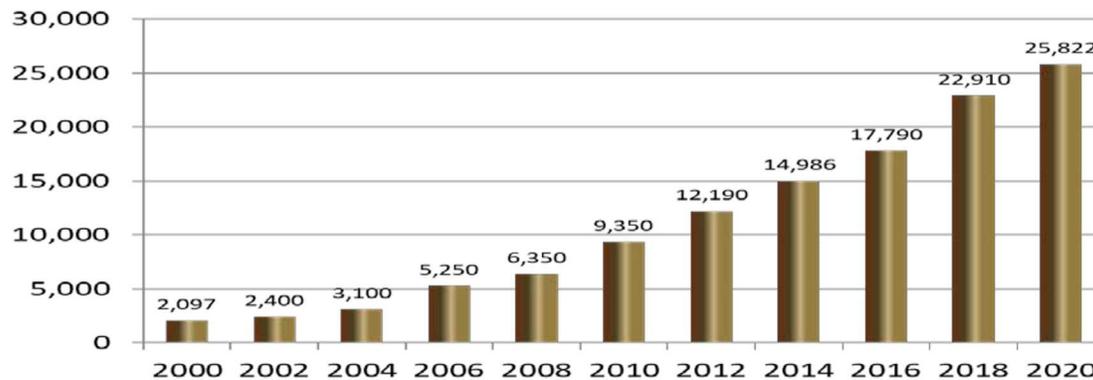

[www.prospertx.gov](http://www.prospertx.gov)

The Town is located in North Central Texas, and covers approximately 27 square miles of the Dallas/Fort Worth Metroplex ("DFW"). Prosper includes areas in Collin and Denton Counties, with most of the Town's population residing in Collin County. The Town is located at the crossroads of Preston Road and US Highway 380, and is just five minutes north of the bustling Dallas North Tollway cities of Frisco and Plano.

The Town is home to first rate education and state championship sports teams, picturesque ranches and other amenities. Access to the DFW area, coupled with a commitment to maintain a high standard of living has created rapid growth for the Prosper community. This pace is expected to increase sharply over the ensuing years.

The 2000 Census population for the Town was 2,097, and the 2018 estimate is 22,910.

Source: Population estimates to date are from North Central Texas Council of Governments. Future estimates are from Town of Prosper staff.

### History of Prosper

Prosper began with the first settlers arriving in the area in 1846. Those who settled here were drawn to North Texas' fertile black prairie soil perfect for thriving cotton crops in a time when cotton was "King." Between 1850 and 1902, two settlements coexisted. One community, two miles south of the present town, was Rock Hill. The second community, one mile north, was Richland. The development of these small communities was expedited in 1876 when County Courts ordered small tracts of land to be established for quick sale. These tracts, approximately 160 acres in size, were sold for \$3.50 per acre. Dr. A. T. Bryant of McKinney purchased one of the tracts, which later became the geographic nucleus for the Town of Prosper.

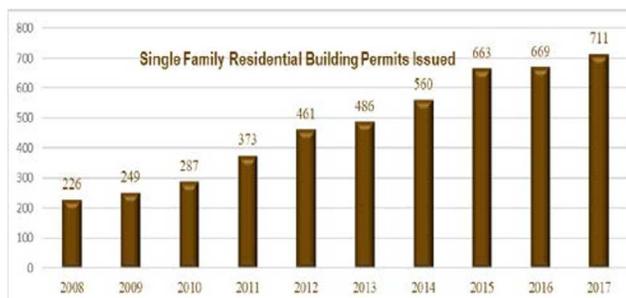

The establishment of the St. Louis & San Francisco Railroad in March of 1902 created the change that forced the communities of Rock Hill and Richland to merge forming the Town of Prosper. For years, Prosper was the central stop for the railroad between Dallas and Sherman. When community officials applied for a Post Office with the name "Richland," they were informed that city name was already taken. Postmaster B.J. Naugle asked for an alternative name and J.C. Slaughter suggested the name Prosper. A new name was adopted for the hybrid community – one that spoke of the prosperous living conditions and the prosperous crops harvested that year.

The Town of Prosper was incorporated in 1914 with a Commission form of government and a population of 500. U.N. Clary was Mayor and served in that position for 49 years. The introduction of the automobile sparked the evolution of people moving in and out of the rural community. Following the war and the depression, the mechanization of farming provided the next big impact on Prosper's population. Beginning in the 1980's, Fortune 500 companies began relocating to the DFW area, spurring growth of the Metroplex, and a renewed interest in families wanting to live in Prosper.

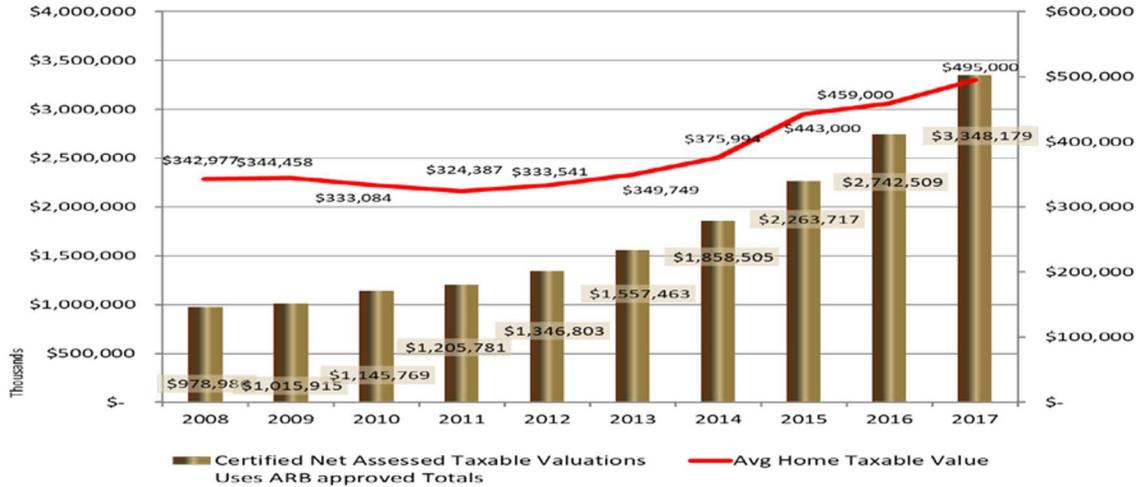

Prosper has managed to retain its country charm by carefully managing growth in accordance with a Comprehensive Land Use Plan, a Parks & Open Space Plan, and a Capital Improvements Plan. Unlike the Cities of Dallas, Plano, and Frisco located to the south, Prosper is characterized by a variety of single-family neighborhoods consisting of estate-size lots and master planned neighborhoods. While residential growth remains strong, the Town is carefully evolving from a bedroom community of 20,000+ residents to a full service town with 1.5M square feet of retail, office and commercial uses under construction and another 100,000 square feet of shovel ready non-residential uses approved for construction. In 2017 alone, 53 new businesses opened.

### **The Economic Outlook**

The Town continues to experience new home permits at a record pace and benefits tremendously from its location. Prosper, while not immune from economic pressures, has thrived more than most DFW communities. According to a May 21, 2014, article by the Dallas Morning News and the US Census Bureau, Prosper was the second fastest growing community in North Texas in 2014. Excluding the price of the lot, the new homes in 2017 averaged \$495K.

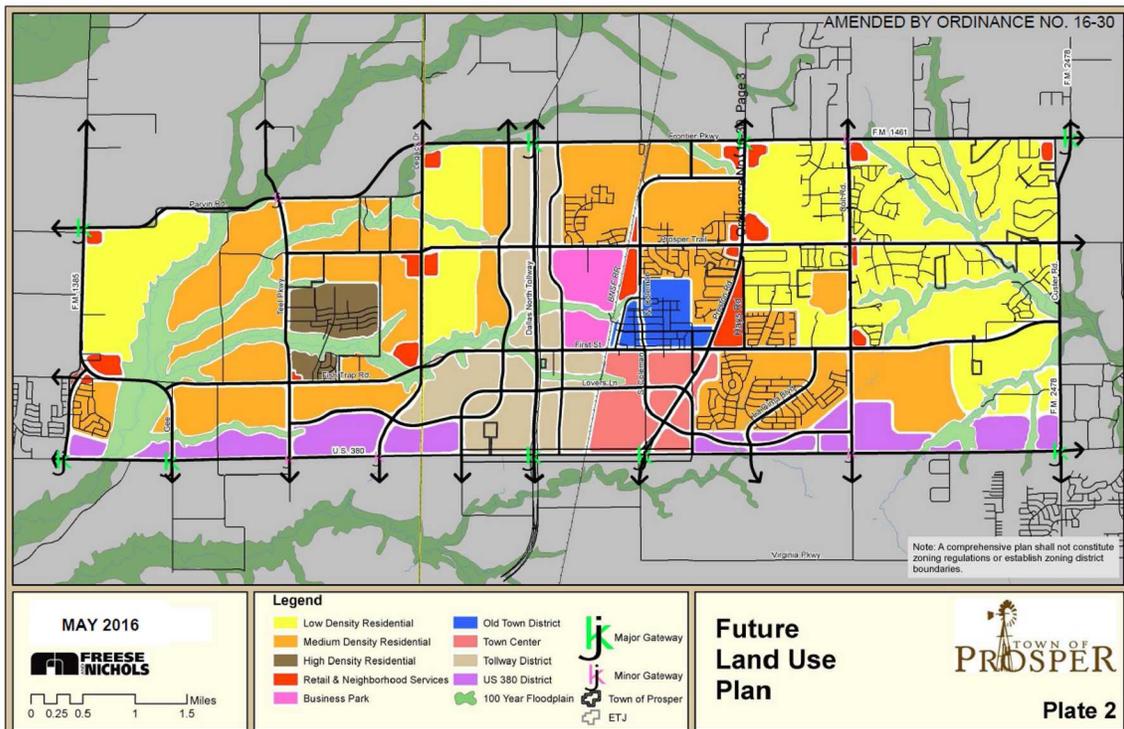

Source: Collin CAD and Denton CAD Certified Totals 2008-2017

The Town has maintained significant growth. Certified property valuations increased by \$605M (22.08%) for FY 2017-2018, from \$2,742.5M to \$3,348.1M. Most of the Town's current values come from Collin County properties, but the Denton County portion is experiencing new developments. This year the Town's value in Denton County increased more than 85%.

The economy influences the timing of population increases and the types of development that occur will affect the build-out of the Town. The Town Council adopted a new Comprehensive Plan in 2012 and annually reviews the Plan in response to changing market conditions. Policy-makers and Town staff use this document as a guide while reviewing development projects, the Town budget, prioritizing capital improvement projects, and drafting ordinances to direct growth that leads to the established vision. The Future Land Use Plan (below) graphically sets an overall framework for the preferred pattern of development within Prosper.

To enhance existing policies that addresses fund balance levels that provides for sufficient cash flow for daily financial needs and secure and maintain investment grade bond ratings, it also establishes a minimum fund balance equal to 5% of budgeted expenditures for unanticipated expenditures as well as a 20% restricted fund balance required by the Town Charter. The Town Council adopted in 2017 a new comprehensive debt management policy that established debt limits to target. The Town Council has continued its implementation of rate recommendations that support the adopted Water and Wastewater Utility Comprehensive Business Plan. The Plan contains recommendations to enhance revenues, to establish at least a 90-day operations and maintenance reserve, and to fund an annual contribution of 2% to a capital replacement program. More detailed revenue information can be found in the MD&A section of the financial section of this CAFR.

The DFW Metroplex continues to outperform most other major metropolitan areas for job growth and stability. Town staff believes Prosper will maintain steady economic development as retail and other commercial services follow the rapid increase in new roof tops.

### **Accounting System and Budgetary Control**

Town management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Town are protected from loss, theft, or misuse. Management must also ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework.

The Town's accounting records for general governmental operations are maintained on a modified accrual basis, with revenues recognized when measurable and available, and expenditures recorded when the liability is incurred. Proprietary operations are maintained on a full accrual basis.

The objective of budgetary controls is to ensure compliance with legal provisions contained in the annual budget approved by the Town Council. The annual budget is developed and controlled at the department level, and serves as the foundation for the Town's financial planning and control. The budget is prepared by fund and department (e.g. General Fund – Police, General Fund – Fire, Water/Wastewater Fund – Utility Billing). Department Heads may transfer resources within a department with the Finance Director's approval. Any amendments or additional funding requests for appropriations over that of the budgeted department level total are approved by the Town Council, even though the Town Charter limits are at the fund level.

The accompanying CAFR incorporates all funds of the Town and includes all government activities, organizations and functions for which the Town is financially accountable. The criteria used in determining activities to be reported within the Town's basic financial statements are based upon and consistent with those set forth by the Governmental Accounting Standards Board.

On May 6, 1995, Town of Prosper voters approved the 4A Sales Tax proposition, which increased the sales and use tax by  $\frac{1}{2}$  of 1% for the promotion and development of new and expanded business enterprises. The 4A funds account for the local sales tax used to encourage additional private investment that will increase and diversify the tax base, create jobs, lower residential taxes, increase the number of retail, commercial and industrial companies locating to the Town and improve Prosper residents' quality of life. The Economic

Development Corporation is Town-chartered and governed by a seven-member Board of Directors appointed by the Town Council. The Town has included the financial statements for the Prosper Economic Development Corporation in its government-wide and government fund financial statements.

### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Prosper, Texas, for its comprehensive annual financial report for fiscal year ended September 30, 2016. The Town has received a Certificate of Achievement for the last seven consecutive years. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe the current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA for consideration.

### **Acknowledgements**

The preparation of this report could not be accomplished without the efficient and dedicated services of the Finance Department staff. I would like to express my appreciation to all employees who contributed to its presentation. Acknowledgement is also given to the representatives of McConnell and Jones, LLP for their assistance in this year's report with special thanks to Marlon Williams, the Audit Manager for this engagement.

I would also like to thank the members of the Town Council for their interest and support in planning and conducting the financial operations of the Town in a responsible and progressive manner.

Respectfully submitted,

  
Harlan Jefferson  
Town Manager

## Independent Auditor's Report

To the Honorable Mayor and Members of the Town Council  
Town of Prosper, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Prosper, Texas (the "Town"), as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town as of September 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### Other Matters

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-11; the statements of revenues, expenditures, and changes in fund

balance – budget and actual for the General and Impact Fees funds on pages 45 and 46, respectively; and the pension plan schedules on pages 47 and 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Supplementary information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town’s basic financial statements. The introductory section, the combining and individual fund schedules, and the statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

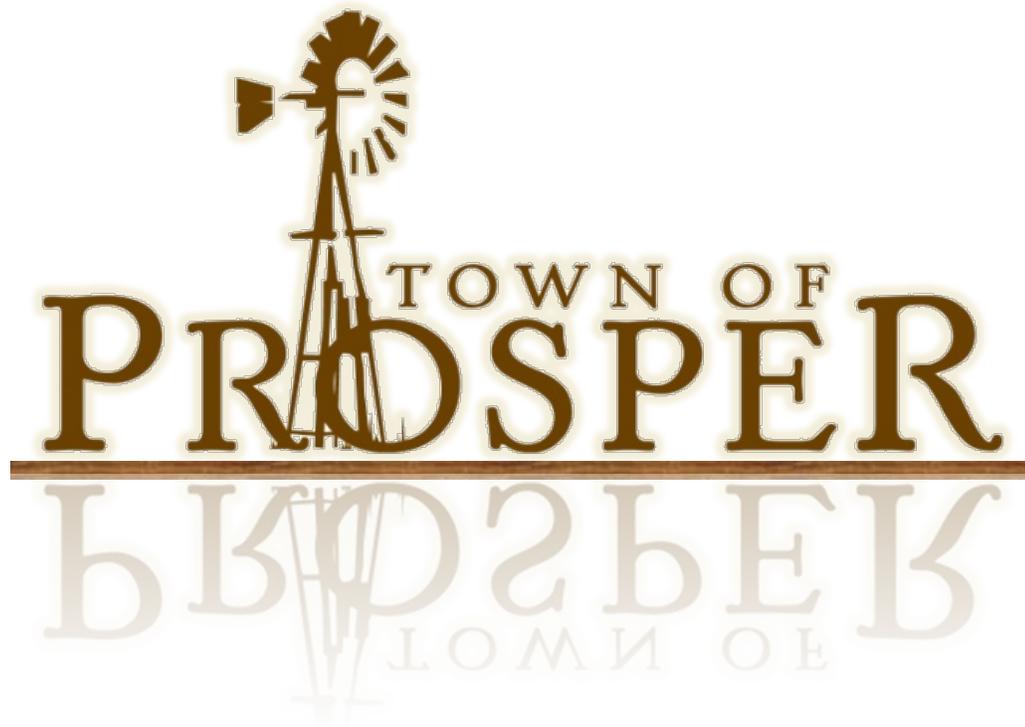

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town’s basic financial statements. The introductory section, individual fund schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**MANAGEMENT'S  
DISCUSSION AND  
ANALYSIS**

*This Page Intentionally Left Blank*

**TOWN OF PROSPER, TEXAS**  
Management's Discussion and Analysis (Unaudited)  
Year Ended September 30, 2017  
*(all amounts in thousands unless otherwise specified)*

As management of the Town of Prosper, Texas (the Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended September 30, 2017.

**Financial Highlights**

- The assets of the Town of Prosper, on a government-wide basis, exceeded its liabilities as of September 30, 2017 by \$138,935 (net position). Of this amount, \$50,909 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net position increased by \$13,829. Most of the increase is due to property taxes, sales taxes, unrestricted investment earning and water and sewer charges for services.
- As of the close of the current fiscal year, the Town of Prosper's governmental funds reported combined ending fund balances of \$42,812 (made up of \$12,304 in General Fund, \$5,489 in Impact Fee Fund, \$2,147 in Debt Service Fund, \$12,223 in Capital Projects Fund and \$10,648 in other governmental funds), a decrease of \$7,918 in comparison with the prior year. The decrease is primarily due to the split of impact fees into business type and governmental type fees in the current year's presentation.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$8,548 or 46.26% percent of total current fiscal year General Fund expenditures and is available for spending at the Town's discretion.
- The Town's long-term liabilities increased by \$8,474 during the year primarily due to issuance of the 2017 Certificates of Obligation for \$11,565, premiums on debt issuances of \$1,266, and an increase in the net pension liability of \$123.
- The Town's capital assets increased by \$25,906, primarily due to additional capital projects funded by bond proceeds.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Town of Prosper's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements** – The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The Statement of Activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the time of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, recreation, and transportation. The business-type activities of the Town include the water and sewer system, as well as sanitation collection and disposal, and storm drainage.

**TOWN OF PROSPER, TEXAS**  
Management's Discussion and Analysis (Unaudited)  
Year Ended September 30, 2017  
*(all amounts in thousands unless otherwise specified)*

The government-wide financial statements include not only the Town of Prosper itself (known as the primary government), but also a legally separate economic development corporation. Financial information for this component unit is reported as blended with the financial information presented for the primary government itself. The government-wide financial statements can be found on pages 12-14 of this report.

**Fund financial statements** – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Prosper, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The funds of the Town of Prosper can be divided into two categories: governmental funds and proprietary funds.

**Governmental funds** – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town of Prosper maintains fourteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Impact Fees Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered to be major funds. Data from the other ten governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and certain budgetary schedules in this report on pages 52-66. The basic governmental fund financial statements can be found on pages 15-19 of this report.

The Town adopts an annual appropriated budget for its General Fund, Debt Service Fund, and Impact Fee Fund and several of the non-major governmental funds. Budgetary comparison schedules have been provided for these funds to demonstrate compliance with the budgets.

**Proprietary funds** – The Town maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its water, sewer, sanitation, and storm drainage activities. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The Internal Service Fund is used to accumulate and allocate costs internally among the Town's various functions. The Town uses its Internal Service Fund to account for its vehicle and equipment replacement program and employee health insurance program. Because these services predominately benefit the governmental rather than the business-type functions, they have been included within governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 21-23.

**Notes to the financial statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24-44 of this report.

**Other Information** – In addition to the basic financial statements and the accompanying notes, this report also presents certain required supplementary information concerning the Town's progress in funding pension benefits to

**TOWN OF PROSPER, TEXAS**  
Management's Discussion and Analysis (Unaudited)  
Year Ended September 30, 2017  
*(all amounts in thousands unless otherwise specified)*

its employees and the budgetary schedule of the General and Impact Fee funds. The required supplementary information can be found on pages 45-50.

The combining statements referred to earlier in connection to the non-major governmental funds are presented immediately following the required supplementary information on pensions.

**Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities by \$138,935 at the close of the most recent fiscal year.

A portion of the Town's net position (54.53%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The Town of Prosper uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's net position (8.83%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (36.64%) may be used to meet the Town's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report positive balances in all categories of net position, both for the Town as a whole, as well as for its separate governmental and business-type activities.

**TOWN OF PROSPER, TEXAS**  
Management's Discussion and Analysis (Unaudited)  
Year Ended September 30, 2017  
*(all amounts in thousands unless otherwise specified)*

The following key elements influenced the changes in net position from the prior year:

Revenues for FY 2016-2017 increased by \$2,770 or 5% in comparison to the prior year. The increase is primarily due to increases in sales taxes, property taxes, and charges for services. Property taxes and sales taxes increased \$3,217 from prior year due to increased assessed value and growth in the Town. Water and sewer charges for services increased \$1,044 over the prior year due to the growth with the town and increase usage of services. The overall growth in revenues was muted by the decrease in capital grant contributions due to the drop in escrow revenue and impact fees.

**Governmental Activities**

Governmental activities increased the Town's net position by \$2,662.

- Impact fee collections decreased by \$6,307 (66%) primarily due to management separating impact fee revenues between governmental and business type activities.
- Property and sales taxes increased by \$3,217 (17%) primarily due to increases in the Town's property tax base and economic development within the Town.
- Total governmental activity charges for services increased by \$654 (13%) primarily due to continued Town growth and an increase in building permit fees collected.
- Total governmental activity expenses increased by \$4,048 (17%) during the year primarily due to the overall growth that the Town has experienced. The largest functional areas affected by this growth were police(\$686), fire(\$1,328) and economic development (\$961).

**Business-type Activities**

Business-type activities increased the Town's net position by \$11,167.

- Operating revenue increased by \$1,044 (8%) from the previous year due to an increase in water and sewer charges for service.
- Operating expenses increased by \$4,687 (45%) from the previous year due to an increase in contractual services.
- The remainder of the change was primarily related to management's decision to identify the split of the impact fees fund between governmental and business-type activities in the current year.

**Financial Analysis of the Town's Funds**

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds** – The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported to combined ending fund balances of \$42,812, a decrease of \$7,918 from the prior year. Most of the decrease is due to management separating water and wastewater impact fees from governmental funds to enterprise funds and increased expenditures on capital projects. Of the current combined ending fund balance, \$61 is nonspendable due to prepaids, \$20,157 is restricted for debt

**TOWN OF PROSPER, TEXAS**  
Management's Discussion and Analysis (Unaudited)  
Year Ended September 30, 2017  
*(all amounts in thousands unless otherwise specified)*

service and capital projects, \$3,696 is committed for contingency in accordance with the Town charter, \$10,316 is assigned for specific purpose such as impact fees and other specific purposes, and \$8,548 is unassigned.

The General Fund is the chief operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$8,548. Total unassigned fund balance represents 46.26% of total General Fund expenditures. The increase in fund balance of \$2,276 is primarily due to increases in property and sales taxes, fines, fees, warrants, and seizures and investment income.

The Impact Fee Fund has a total fund balance of \$5,489; which is restricted for capital projects. The decrease in fund balance of \$6,931 is due to transfers out to the capital projects fund for qualifying projects.

The Debt Service Fund has a total fund balance of \$2,147; all of which is restricted for payment of debt service. The increase in fund balance of \$306 is primarily due to an increase in property tax revenues during the year.

The Capital Projects Fund has a total fund balance of \$12,223; all of which is restricted for construction. The decrease in fund balance of \$6,398 is primarily due to increased capital outlay.

**Proprietary funds** – The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water and Sewer Fund at the end of the year amounted to \$23,036. The increase in total net position of the Water and Sewer Fund was \$9,904. Unrestricted net position for the Stormwater Drainage Utility Fund at the end of the year amounted to a deficit of (\$26). The increase in total net position of the Stormwater Drainage Utility Fund was \$1,263. The factors concerning the finances of these funds have already been addressed in the discussion of the Town's business type activities.

### **General Fund Budgetary Highlights**

**Original budget compared to final budget** – During the year, amendments to increase the original budgeted revenue resulted from unanticipated sales tax, license and permits. Other budget amendments include increase expenditures as a result of a compensation plan adjustment (\$956), along with corresponding appropriations that were added to the budget from carryover for encumbrances from the prior year (\$103). Generally, the movement of the appropriations between departments was not significant.

**Final budget compared to actual results** – During the year, revenues were \$2,641 more than estimated and expenditures were \$1,438 less than budgeted. The majority of the excess revenues arose from sales and franchise taxes, fines and fees, warrants, and seizures, and miscellaneous. The majority of expenditure savings was in parks and recreation, followed by inspections and fire. The positive variances in revenues and expenditures allowed for transfers of \$55 for cash financing of capital projects. With the transfers, fund balance increased by \$2,276.

### **Capital Assets and Debt Administration**

**Capital assets** – The Town's investment in capital assets for its governmental and business-type activities as of September 30, 2017 is \$75,756 (net of accumulated depreciation). This investment in capital assets includes land, buildings and infrastructure, and equipment.

Major capital asset events during the current fiscal year included the following:

- Capital asset acquisitions in governmental activities totaled \$24,409. The majority of this activity was funded from bond proceeds and was for streets, parks, and related infrastructure.
- Capital asset additions in business-type activities totaled \$6,625. The majority of this activity was funded from bond proceeds and was for new water and sewer projects.

Additional information on the Town's capital assets can be found in Note 6 on pages 34-35 of this report.

**Long-term liabilities** – At the end of the current fiscal year, the Town had bonded debt outstanding of \$84,185. This amount comprises debt backed by the full faith and credit of the Town.

The Town's bond ratings are AA<sup>+</sup> as assigned by Standard & Poor's on June 30, 2017, and Aa1 as assigned by Moody's on June 13, 2017.

Total long-term liabilities consisted of the following (in thousands):

Additional information on the Town's long-term liabilities can be found in Note 8 on pages 36-38 of this report.

**Economic Factors and FY 2017-2018 Budgets and Rates**

The Town continues to thrive, with residential and commercial development occurring at the highest levels the Town has ever seen. The resulting increase in property values reflects the commitment of the Council and the efforts of the Prosper Economic Development Corporation (PEDC) to attract quality development. The FY 2017-2018 Adopted Budget addresses the need for increased service levels due to growth. The budget provides essential capital investments in infrastructure and other public improvements, as well as additional public safety resources.

Revenue Projection Highlights

Despite the Town's current and future growth potential and general optimism, the budget was prepared with conservative revenue assumptions in mind.

- The FY 2017-2018 Adopted Ad Valorem Property Tax Rate is set at \$0.52 per one hundred dollars taxable

**TOWN OF PROSPER, TEXAS**  
Management's Discussion and Analysis (Unaudited)  
Year Ended September 30, 2017  
*(all amounts in thousands unless otherwise specified)*

valuation, which marks the eighth straight year of maintaining this property tax rate. Certified property valuations increased by \$567.8M (22.30%) for FY 2017-2018. Property values increased from \$2,546M to \$3,114M. Most of the Town's current values come from Collin County properties, but the Denton County portion almost doubled in value due to new developments. This fiscal year the Town's value in Denton County increased by more than 84% and Collin County increased more than 16%.

- Sales tax revenue is projected to reach \$6,165,834, compared to FY 2016-2017's actual amount of \$5,071,127. Growth in new business and a general increase in existing retail sales are expected in FY 2017-2018, just as it was in FY 2016-2017.
- Budgeted building permit revenues are expected to increase to \$2,747,700 or 3.4% when compared to the FY 2016-2017 Adopted Budget. The Town expects to issue 700 or more new residential permits in FY 2017-2018.
- Licenses and Franchise Fees are projected to rise slightly with population. Municipal Court fines are estimated at \$419,580, compared to the FY 2016-2017 budget of \$385,000.
- Revenues for the Water and Sewer Fund are expected to increase to \$16,768,903. The adopted business plan for the fund identified the need for revenue enhancements to cover existing and future operations and maintenance costs, as well as debt service and contracted sewer costs with the Upper Trinity Regional Water District and North Texas Municipal Water District. The Town has not adjusted rates since 2012 despite the substantial price increases from the North Texas Municipal Water District, the major supplier of water to our residents. In the interest of avoiding a rate shock on the part of the ratepayers, the Town imposed a three-year phase of adjustments needed to fully recover operating and capital costs through revenues starting in FY 2017-2018. The average residential water and wastewater consumer will see an increase of 11% to their monthly charges and an average commercial consumer will see an increase of 12% in their monthly charges. In addition, under the solid waste agreement approved by Town Council in FY 2016-2017, the Town's solid waste provider agreed to hold rates steady for two years. We are in our last year of such contract for solid waste.

Appropriated Budget Highlights

The adopted budget addressed increased service levels in response to continued growth, provided required or money-saving capital investments in infrastructure, included other public improvements, as well as additional public safety resources. The Town has continued to thrive relative to many markets.

Program enhancements and capital expenditures included in the adopted appropriations and planned for FY 2017-2018 are as follows:

*Police Operations & Dispatch*

Two additional Police Officers and one Police Records Clerk were included in the Police Department budget. Phase I of the Public Safety facility was budgeted in the Capital Improvement Plan.

*Fire, EMS & Fire Marshall*

Six Firefighter/Paramedics for Station No. 2 along with a new ambulance. An EMS Division Chief and additional overtime were included in the Fire Department budget.

*Streets*

The Streets Department budget included funding for road repairs on Prosper Trail – Coit to Custer, DNT, Windsong Ranch Phase 2, and Frontier Parkway.

**TOWN OF PROSPER, TEXAS**  
Management's Discussion and Analysis (Unaudited)  
Year Ended September 30, 2017  
*(all amounts in thousands unless otherwise specified)*

*Parks and Recreation*

Preston Road monument median and US 380 median design along with four full time staff for library was included in the Parks and Recreation budget.

*Water/Wastewater*

The budget included funding six full time staff for the Water and Wastewater fund. The major program enhancements and capital item expenses budgeted in FY 2017-2018 include future land purchase for a public works/parks facility and increased cost associated with the purchase of water and management of wastewater for growth.

The following items have also been incorporated into the FY 2017-2018 Adopted Budget:

- The budget includes a revision to the compensation program for employees consistent with the Town Council's goal.
- The new town hall is under construction with anticipated opening date in summer 2018. There have been several budget line items impacted by the opening and streamlining maintenance of the facility.
- Continued partnerships with local entities have produced multiple saving opportunities for shared services or improving our customer service to residents and visitors alike. The Town continues to operate the Community Library in the Reynolds Middle School. Interlocal agreement with PISD to access their fueling facility. The Town renewed its agreements, along with several area cities, with Collin County for animal control and sheltering service. The Town has several agreements with Frisco, including the use of the Frisco GIS for our departments and interlocal agreement for Police and Fire Departments to access their radio system.
- The adopted budget accomplishes Council goals to expand services and competitively compensate staff while holding the line on the tax rate. The budget also included a future five-year financial plan to help manage the decisions made for the next fiscal year and the impact it has on future fiscal responsibilities. The Town's budget addresses the current and future growth and infrastructure expansion demands while recognizing the needs of its residents.

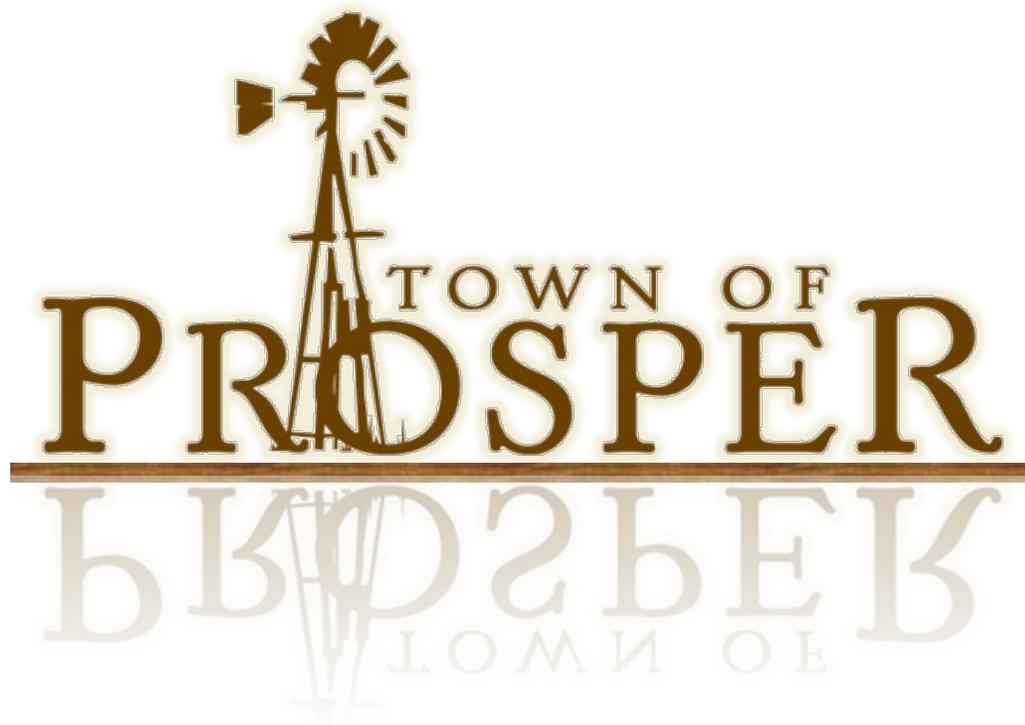

All of these factors were considered in preparing the Town's budget for FY 2017-2018.

**Request for Information**

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Town Manager, P. O. Box 307, Prosper, Texas 75078.

**TOWN OF PROSPER, TEXAS**  
 Reconciliation of the Balance Sheet of Governmental Funds  
 to the Statement of Net Position  
 September 30, 2017

Total Fund Balances - Governmental Funds	\$ 42,811,655
Amounts reported for governmental activities in the statement of net position (page 12) are different because:	
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the governmental funds balance sheet.	112,710,140
Bonds payable will not be liquidated with current financial resources and therefore have not been included in the fund financial statements.	(54,056,400)
Accrued liabilities for compensated absences will not be liquidated with current financial resources and therefore have not been included in the fund financial statements.	(1,027,417)
Interest payable on long-term debt is accrued in the government-wide financial statements, whereas in the fund financial statements, interest expenditures are reported when due.	(256,337)
Premiums (\$4,864,587) on bond issuances less deferred losses on bond refunding of (\$997,195) are recorded as other financing sources and uses when paid in the fund financial statements but are capitalized and amortized in the government-wide financial statements over the life of the bonds.	(3,867,392)
Receivables from property taxes and fines and fees are not available soon enough to pay for the current period's expenditures and are, therefore, deferred in the fund financial statements.	377,959
Included in the items related to debt is the recognition of the Town's proportionate share of the net pension liability in the amount of \$2,316,002, a deferred outflow of resources of \$1,483,173 and a deferred inflow of resources of \$146,917. The net effect is to decrease net position.	(979,746)
The Town uses an internal service fund to charge the costs of the medical reimbursement program and the vehicle and equipment replacement program to appropriate departments in other funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position. The net effect is to increase net position.	<u>2,892,784</u>
Net Position of Governmental Activities	<u>\$ 98,605,246</u>

**TOWN OF PROSPER, TEXAS**  
**Reconciliation of Revenues, Expenditures, and Changes**  
**in Fund Balances – Governmental Funds to the Statement of Activities**  
**For the Year Ended September 30, 2017**

Net Change in Fund Balances - Governmental Funds	\$ (7,917,508)
Amounts reported for governmental activities in the statement of activities (pages 13 - 14) are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay (\$23,767,327) exceeds depreciation expense (\$3,846,212).	19,921,115
Governmental funds do not recognize assets contributed by others. However, in the statement of activities, the fair market value of those assets are recognized as revenue then allocated over their estimated useful lives and reported as depreciation expense.	344,677
Assets were disposed of that were not fully depreciated. The loss is reported on the government-wide financial statements.	(25,228)
Principal payments on bonds payable are expenditures or other financing uses in the fund financial statements but are shown as reductions in long-term debt in the government-wide financial statements.	2,362,950
Deferred losses on refunding and premiums are amortized over the life of the bonds in the government-wide financial statements. This is the current year amortization.	214,932
Proceeds from bond premiums are recorded as other financing sources in the fund financial statements, but increases liabilities in the government-wide financial statements.	(1,155,110)
Proceeds from issuance of bonds are recorded as other financing sources in the fund financial statements but increases liabilities in the government-wide financial statements.	(10,575,000)
Additions to liabilities for compensated absences are not shown in the fund financial statements. The net effect of the current year's increase is to decrease net position.	(248,931)
Interest payable on long-term debt is accrued in the government-wide financial statements, whereas in the fund financial statements, interest expenditures are reported when due. The increase in interest accrual decreases net position.	(43,728)
The Town uses an internal service fund to charge the costs of the medical program and the vehicle and equipment replacement program to the appropriate departments in other funds. The change in net position of the internal service fund is reported with governmental activities.	390,365
Certain expenditures for the pension that are recorded to the fund financial statements must be recorded as deferred outflows of resources. Changes in the net pension liability caused changes in net position to decrease in the amount of \$105,895. The City's share of the unrecognized deferred inflows and outflows as of the measurement date must be amortized and the City's proportionate share of the pension expense must be recognized. These cause the change in net position to increase in the amount of \$64,134. The net effect is a decrease in net position.	(41,761)
Revenues from property taxes and fines are deferred in the fund financial statements until they are considered available to fund current expenditures, but such revenues are recognized in the government-wide statements. The effect of recognizing deferred tax income and fines revenue of \$377,959 and removing prior year's deferred tax recognized of \$943,154 is to increase net position.	(565,195)
Change in Net Position of Governmental Activities	<u>\$ 2,661,578</u>

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

**Note 1: Summary of Significant Accounting Policies**

The financial statements of the Town of Prosper have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Town's accounting policies are described below.

Reporting Entity

The Town is a municipal corporation governed by an elected seven-member council. As required by accounting principles generally accepted in the United States of America, these financial statements present the Town and its component unit entity for which the Town is considered to be financially accountable.

**Blended Component Unit**

The Prosper Economic Development Corporation (EDC) serves all citizens of the Town and is governed by a board appointed by the Town's elected council. The Town and the EDC board work in tandem in determining desirable and eligible economic development projects; however, since the EDC board members serve at the pleasure of the Town Council, the Town Council is ultimately responsible for economic development projects undertaken by the Town. The scope of public service of the EDC benefits the Town and its citizens and is operated primarily within the geographic boundaries of the Town. The EDC is presented as a governmental fund type and has a September 30 year end. The EDC is reflected as a blended component unit as a result of the component unit providing services almost entirely to the primary government and for the benefit of the primary government.

Complete financial statements for the EDC may be obtained at the entity's administration office, Prosper Economic Development Corporation, P. O. Box 1060, Prosper, Texas 75078.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from a certain legally separate *component unit* for which the primary government is financially accountable. The Fiduciary fund and any fiduciary activities of the Town are not included in these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements by the provider have been met.

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and interest income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the Town.

The Town reports the following major governmental funds:

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Impact Fee Fund, a special revenue fund, accounts for revenues that are legally restricted for particular purposes. This fund is used to account for activity related to impact fees.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term obligation debt of governmental funds.

The Capital Projects Fund accounts for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.

The Town reports the following major proprietary funds:

The Water and Sewer Fund, an enterprise fund, is used to account for those operations that are financed and operated in a manner similar to private business or where the council has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The Town's water and sewer fund is used to account for water, sewer and sanitation operations.

The Stormwater Drainage Fund, an enterprise fund, is used to account for the Town's stormwater drainage utility operations.

The Internal Service Fund is used to accumulate and allocate costs internally among the Town's various functions. The Town uses its Internal Service Fund to account for its vehicle and equipment replacement program and employee medical reimbursement program as well as to facilitate distribution of support costs to the users of support services on a cost-reimbursement basis. Because these services predominately benefit the governmental rather than the business-type functions, they have been included within governmental activities in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are general and administrative fees, street rental fees and other charges between the Town's water and sewer function and various other functions of the Town. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for sales and services. The proprietary funds also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for proprietary funds include the cost of

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Deposits and Investments

For purposes of the statement of cash flows, cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity date within three months of the date acquired by the Town.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds” on the balance sheet. Short-term interfund loans are classified as “interfund receivables/payables.”

Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

Certain resources set aside for the repayment of bonds are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. Also included in restricted assets are capital recovery fees (impact fees) that are, by law, restricted for future capital improvements; and assets set aside for construction of future debt funded capital improvements. When the Town incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town has items that qualify for reporting in this category. They include deferred charges on bond refundings reported in the government-wide statement of net position, as well as deferred outflows related to the Town’s pension with TMRS.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has one type of item arising only under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet as a deferred inflow of resources. The governmental funds report unavailable revenues from property taxes and fines. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Town also has deferred inflows reported in the statement of net position related to the Town’s pension with TMRS.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements, as well as in the proprietary fund statement of net position. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. Donated assets received in a service concession arrangement are reported at acquisition value rather than fair value.

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period. During the year ended September 30, 2017, \$212,994 of interest was capitalized.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

<u>Asset Type</u>	<u>Number of Years</u>
Buildings	20 - 30
System infrastructure	15 - 45
Street infrastructure	25 - 30
Equipment	5 - 10
Vehicles	4 - 7

Intangible Assets

Intangible assets are reported in the business-type activities column in the government-wide financial statements as well as in the proprietary fund statement of net position. Intangible assets with an initial, individual cost of more than \$5,000 and an estimate useful life in excess of two years are recorded at historical cost or estimate historical cost if purchased or constructed. Once placed into service, the intangible asset is amortized over its estimated useful life. As of September 30, 2017, the Town's only intangible asset was related to wastewater treatment capacity rights acquired from the Upper Trinity Regional Water District. Although the capacity rights were initially acquired in March 2014, the related plant facility was not placed into service as of September 30, 2017, and in the current year amortization of \$311,578 has been recognized in these financial statements.

Compensated Absences

It is the Town's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and sick pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignation and retirements.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Health Claims Liability

The Internal Service fund includes an estimate of liabilities for self-insured claims incurred but not reported and are expected to be paid within one year. As of September 30, 2017 \$80,682 is estimated an included in accounts payable and accrued expenses in the statement of net position.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position and Fund Balance

In the government-wide and proprietary fund financial statements, the Town reports restrictions of net position for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Net investment in capital assets represents the Town's investment in the book value of capital assets, less any unspent proceeds from capital-related debt issuances. Unrestricted net position consists of net position that does not meet the definition of restricted or net investment in capital assets.

The Town classifies governmental fund balances in accordance with Government Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*:

*Nonspendable* fund balance includes amounts that are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact.

*Restricted* fund balance includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed* fund balance includes amounts that can be used only for the specific purposes determined and approved by passage of a formal resolution of the Town's highest level of decision-making authority, the Town Council. Commitments may be changed or lifted only by the Town taking the same formal action that imposed the constraint originally. In accordance with the Town Charter, an amount equal to twenty percent of total general fund expenditures has been identified as committed for a contingency reserve.

*Assigned* fund balance includes amounts intended to be used by the Town for specific purposes. Pursuant to Ordinance 11-66, the Town Council designated the Town Manager or his/her designee as the official authorized person to assign fund balance. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. At September 30, 2017, the Town had assigned fund balances for specific purposes including parks and recreation in the amount of \$10,316.

*Unassigned* fund balance is the residual classification of the general fund and includes all amounts not contained in the other classifications. The general fund is the only fund that reports a positive unassigned fund balance amount.

The Town uses restricted amounts first when both restricted and unrestricted fund balances are available. Additionally, the Town would use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The Town's financial goal is to achieve and maintain an unassigned fund balance in the general fund equal to twenty-five percent of budgeted expenditures, but may be reduced down to ten percent in unusual financial circumstances with a corrective five-year plan to restore the fund balance back to twenty-five percent.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates included in the financial statements are

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

depreciation expense which is based on the estimated useful lives of the underlying depreciable assets, allowances for doubtful accounts receivables, and net pension liability which is based on various actuarial assumptions.

Recent Accounting Pronouncements

The Town has reviewed GASB pronouncements which become effective in future years and notes the following statements are applicable to the Town.

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* – This statement changes the focus of accounting of postemployment benefits other than pensions from how much it costs to adequately fund the benefits over time to a point-in-time liability that is reflected on the employer’s financial statements for any actuarially unfunded portion of benefits earned to date. This statement will become effective for the Town fiscal year 2018. Management is currently evaluating the impact, if any, this statement will have on the Town’s financial statements.

Statement No. 84, *Fiduciary Activities* – This statement establishes criteria for identifying fiduciary activities of governments and for identifying fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This statement will become effective for the Town in fiscal year 2020. Management is currently evaluating the impact, if any, this statement will have on the Town’s financial statements.

Statement No. 87, *Leases* – This statement changes the recognition requirements for certain lease assets and liabilities for leases that are currently classified as operating leases. This statement will become effective for the Town in fiscal year 2021. Management is currently evaluating the impact, if any, this statement will have on the Town’s financial statements.

Reclassifications

Certain reclassifications have been made to the 2016 financial statements to conform with the 2017 financial statement presentation. These reclassifications had no effect on changes in fund balances or net position.

**Note 2: Stewardship, Compliance, and Accountability**

Budgetary Control

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are legally adopted for the General Fund, Impact Fee Fund, Debt Service Fund, Water and Sewer Fund, and Storm Drainage Fund. Project length financial plans are adopted for all capital project funds.

**Note 3: Deposits and Investments**

Deposits

State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. All deposits of the Town that exceeded the federal depository insurance coverage level of \$250,000 per account were covered by collateral pledging financial institution’s trust department or agent in the Town’s name and/or irrevocable standby letters of credit. The market value of the collateral held at September 30, 2017 was \$25,000,000.

At September 30, 2017, the carrying amount of the City’s deposits was \$16,667,933, and the respective bank balances totaled \$16,570,300. The Towns’ cash on hand totaled \$4,825.

Investments

The Town is authorized to invest in the following: U.S. Government obligations and its agencies or instrumentalities; direct obligations of the State of Texas or its agencies and instrumentalities; other obligations, the principal and interest

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

on which are unconditionally guaranteed or insured by, or backed by the full faith and credit of the State of Texas or United States or their respective agencies and instrumentalities; obligations of states, agencies, counties, cities and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent rating; insured or collateralized certificates of deposit, no-load SEC registered money market funds consisting of any of these securities listed with a dollar-weighted average stated maturity of 60 days or less and with an investment objective of a stable net asset value of \$1 for each share; eligible investments pools organized and operating in compliance with PFIA; fully collateralized repurchase agreements and reverse repurchase agreements; prime domestic commercial paper; prime domestic bankers' acceptances; guaranteed investment contracts; securities lending program consisting of authorized investments by the Town's investment policy. For additional information see the Town of Prosper's Investment Policy at [www.prospertx.gov](http://www.prospertx.gov).

The Town's investments carried at fair value as of September 30, 2017, were:

	Fair Value	Weighted Average Maturity (days)
	<u>                    </u>	<u>                    </u>
Investment type:		
Certificates of deposit	\$ 6,000,701	291
US Government Bonds	12,054,230	364
Municipal Bonds	2,002,920	258
Total	<u>\$ 20,057,851</u>	
Portfolio Weighted Average to Maturity		331

Additional the town has investments in government pools at September 30, 2017, totaling \$32,688,298, which are recorded at amortized cost.

Under the Texas Local Government Investment Pool ("TexPool") Participation Agreement, administrative and investment services to TexPool are provided by Federated Investors, Inc. through an agreement with the State of Texas Comptroller of Public Accounts. The State Comptroller is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company authorized to operate TexPool. The reported value of the pool is the same as the fair value of the pool shares. TexPool is subject to annual review by an independent auditor consistent with the Public Funds Investment Act. Audited financial statements of the Pool are available at First Public, 12008 Research Blvd., Austin, Texas 78759. In addition, TexPool is subject to review by the State Auditor's Office and by the Internal Auditor of the Comptroller's Office. Due to its short-term, highly liquid nature, TexPool investments have been reported as cash equivalents.

The Texas Short-Term Asset Reserve Investment Pool ("TexSTAR") is a local government investment pool organized under the authority of the Interlocal Cooperation Act, chapter 791, of the Texas Government Code, and the Public Funds Investment Act, chapter 2256, of the Texas Government Code. J.P. Morgan Investment Management Inc. serves as investment advisor and co-administrator with First Southwest. TexSTAR invests in treasury and agency securities and repurchase agreements fully collateralized by government securities. The pool maintains a weighted average maturity of 60 days or less. The pool seeks to maintain a constant dollar objective. The reported value of the pool is the same as the fair value of the pool shares. Due to its short-term, highly liquid nature, investments in TexSTAR have been reported as cash equivalents.

*Custodial Credit Risk – Deposits:* In the case of deposits, this is the risk that, in the event of a bank failure, the Town's deposits may not be returned to the Town. The Town's policy regarding types of deposits allowed and collateral requirements is: the Depository may be a state bank authorized and regulated under Texas law; a national bank, savings and loan association, or savings bank authorized and regulated by federal law; or a savings and loan association or savings bank organized under Texas law; but shall not be any bank the deposits of which are not insured by the Federal Deposit Insurance Corporation (FDIC) and pledged securities. The Town is not exposed to custodial credit risk for its deposits, as all are covered by depository insurance and pledged securities.

In compliance with the Public Funds Investment Act, the Town has adopted a deposit and investment policy. That

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

policy addresses the following risks:

*Custodial Credit Risk – Investments:* For an investment, this is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town’s investments are in certificates of deposit.

*Credit Risk:* This is the risk that an issuer of an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. It is the Town’s policy to limit its investments to those investments rated at least AAAM. The credit quality rating for both TexPool and TexSTAR at year end was AAAM by Standard & Poor’s.

*Interest Rate Risk:* This is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Town manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than four years from the time of purchase; structuring the investment portfolio so that securities matured to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the secondary market prior to maturity; monitoring credit ratings of portfolio positions to assure compliance with rating requirements imposed by the Public Funds Investment Act; and investing operating funds primarily in short-term securities, money market mutual funds, or similar government investment pools. The maximum allowable maturity for operating funds is five years and two years for debt service funds.

*Foreign Currency Risk:* This is the risk that exchange rates will adversely affect the fair value of an investment. The Town is not exposed to foreign currency risk.

*Concentration of Credit Risk:* This is the risk of loss attributed to the magnitude of the Town’s investment in a single issuer (i.e., lack of diversification). As of September 30, 2017, the Town minimized concentration of credit risk, by: limiting investments in a specific local governmental pools to no more than 40 percent of the investment portfolio; staggering maturities and potential call dates; and limiting investments in commercial paper and bankers’ acceptances to no more than 5% of the investment portfolio. Concentration risk is defined as positions of 5 percent (5%) or more in the securities of a single issuer. Investments that individually represent 5% or more of net portfolio assets are stated below.

Securities by Issuer	Fair Value	% of Total Portfolio
Federal Home Loan Bank (FHLB)	9,060,980	45.17%
Federal Home Loan Mortgage Corporation (FHLMC)	2,993,250	14.92%
Hudson County	2,002,920	9.99%
CD's	6,000,701	29.92%
Total Securities	20,057,851	100%

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

**Note 4: Fair Value Measurements**

In Fiscal Year 2016, the Town adopted GASB 72, which was issued to address accounting and financial reporting issues related to fair value measurements.

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs other than quoted market prices for similar assets; Level 3 inputs are significant unobservable inputs.

The Town has the following recurring fair value measurements as of September 30, 2017:

	Fair value as of 9/30/2017	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level				
Certificates of deposit	\$ 6,000,701	\$ -	\$ 6,000,701	\$ -
US Government Bonds	12,054,230	-	12,054,230	-
Municipal Bonds	2,002,920	-	2,002,920	-
Total investments by fair value level	<u>\$ 20,057,851</u>	<u>\$ -</u>	<u>\$ 20,057,851</u>	<u>\$ -</u>

**Note 5: Receivables**

The Town's receivables as of September 30, 2017 consisted of the following:

	General Fund	Debt Service Fund	Capital Projects Fund	Nonmajor Govern-mental Funds	Impact Fees Fund	Water and Sewer Fund	Stormwater Drainage Utility Fund	Internal Service Fund	Total
Property taxes	\$ 112,374	\$ 40,606	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 152,980
Sales tax	1,028,742	-	-	359,162	-	-	-	-	1,387,904
Utility bills	-	-	-	-	-	1,983,204	57,082	-	2,040,286
Interest	17,194	3,078	11,562	6,344	8,377	19,628	806	2,531	69,520
Other receivables	689,353	-	-	588,140	-	-	-	-	1,277,493
Gross receivables	1,847,663	43,684	11,562	953,646	8,377	2,002,832	57,888	2,531	4,928,183
Less: allowance for uncollectible accounts	(78,760)	-	-	-	-	(241,479)	-	-	(320,239)
Net receivables	<u>\$ 1,768,903</u>	<u>\$ 43,684</u>	<u>\$ 11,562</u>	<u>\$ 953,646</u>	<u>\$ 8,377</u>	<u>\$ 1,761,353</u>	<u>\$ 57,888</u>	<u>\$ 2,531</u>	<u>\$ 4,607,944</u>

Property taxes are based on the appraised values provided by the Collin County or Denton County Central Appraisal District, whichever is applicable. Taxes are levied by October 1 of each year. Unpaid property taxes become delinquent on February 1 of the following year. Penalty is calculated after February 1 up to the date collected by the Town at the rate of 6% for the first month and increased 1% per month up to a total of 12%. Interest is calculated after February 1 at the rate of 1% per month up to the date collected by the Town. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the Town. The Town's current policy is to write-off uncollectible personal property taxes after four years.

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

Depreciation expense for the year ended September 30, 2017 was charged to functions/programs of the primary government as follows:

Governmental activities:	
General government	\$ 34,522
Police	130,239
Dispatch	105,710
Fire	311,182
Streets	2,464,771
Parks and recreation	902,709
Inspections	20,607
Engineering	<u>3,653</u>
Total	<u>\$ 3,973,393</u>
Business-type activities:	
Water and sewer	\$ 1,095,398
Stormwater drainage utility	<u>33,925</u>
Total	<u>\$ 1,129,323</u>

**Note 7: Interfund Receivables, Payables, and Transfers**

Interfund balances at September 30, 2017 were as follows:

Due to/from other funds:

Due To Fund	Due From Fund	Amount	Purpose
Nonmajor Governmental	Nonmajor Governmental	\$ 461,239	Short-term loans
Nonmajor Governmental	Nonmajor Governmental	10,448	Short-term loans
Water and Sewer	Stormwater Drainage	263,741	Short-term loans
General Fund	Water and Sewer	<u>7,398</u>	Short-term loans
		<u>\$ 742,826</u>	

The outstanding balances between funds result mainly from the time lag between the dates that (1) reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

Interfund transfers:

<b>Transfer From</b>	<b>Transfer To</b>	<b>Amount</b>	<b>Purpose</b>
Nonmajor Governmental	Capital Projects Fund	\$ 55,060	Capital outlay
Water and Sewer	Capital Projects Fund	425,306	Capital reimbursement

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

**Note 9: Restricted Assets**

The balances of restricted asset accounts are as follows:

Business-type Activities		Cash	Investments
Water and Sewer Fund	Capital projects (Unspent bond proceeds)	\$ 2,628,666	\$ 196,881
Water and Sewer Fund	Impact fees	3,564,324	2,130,624
Water and Sewer Fund	Customer deposits/escrow	72,100	-
Stormwater Drainage Fund	Capital projects (Unspent bond proceeds)	2,111,608	-
		<u>\$ 8,376,698</u>	<u>\$ 2,327,505</u>

**Note 10: Assigned Fund Balance**

A portion of the Town's governmental fund balances are assigned for the following purposes:

Assigned for:	
Parks and recreation	\$ 3,683,496
Special revenue/contributions	1,681,042
Economic development	4,951,279
	<u>\$ 10,315,817</u>

**Note 11: Risk Management**

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town is a participant in the Texas Municipal League Workers' Compensation Joint Insurance Fund (WC Fund) and the Texas Municipal League Joint Self-Insurance Fund (Property-Liability Fund), a public entity risk pool operated by the Texas Municipal League Board for the benefit of individual governmental units located in Texas. The Town pays an annual premium to the Funds for its workers' compensation and property and liability insurance coverage. The WC Fund and the Property-Liability Fund are considered self-sustaining risk pools that provide coverage for their members for up to \$2,000,000 per insured event. The Town also maintains insurance coverage for cyber attacks. There were no significant reductions in insurance coverage from the previous year. Settled claims for risks have not exceeded insurance coverage in any of the past three years.

The Town of Prosper initiated a self-funded health and dental plan effective January 1, 2017 for Town Employees and their dependents. The Town maintains the Employee Health and Insurance Fund to account for the Town's employee health and dental care coverage. In addition, excess insurance of up to \$1,000,000 has been obtained for an individual unit health and prescription drugs claims exceeding of \$50,000 and the for health claims in the aggregate exceeding \$748,922. The Town's claim administrator is Blue Cross Blue Shield of Texas.

Revenues are recognized from payroll deductions and City contributions. At September 30, 2017, a liability of \$80,683 has been recorded, which represents estimated claims incurred but not yet reported. Changes in this claims liability during fiscal years 2017 were as follows:

	Balance Beginning of Fiscal Year	Current-Year Claims and Changes in Estimates	Claim Payments	Balance at End of Fiscal Year
2016-2017	\$ -	\$ 1,868,075	\$ 1,787,392	\$ 80,683

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

**Note 12: Texas Municipal Retirement System**

Plan Description

The Town participates as one of 872 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at [www.TMRS.org](http://www.TMRS.org).

All eligible employees of the Town are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the Town, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the Town-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest. A member city may elect to increase the annuities of its retirees, either annually or on an annually repeating basis, effective January 1 of a calendar year. The Town has adopted annuity increases as a rate equal to 70% of the increase (if any) in the Consumer Price Index – all Urban Consumers (CPI-U) between the December preceding the member's retirement date and the December one year before the effective date of the increase, minus any previously granted increases.

The plan provisions are adopted by the governing body of each city, within the options available in the state statutes governing TMRS. The Town has elected that members can retire at age 60 and above with 5 or more years of service or with 20 years of service regardless of age. The Town does not provide supplemental death benefits. Members may work for more than one TMRS city during their career. If a member is vested in one TMRS city, he or she is immediately vested upon employment with another TMRS city. Similarly, once a member has met the eligibility requirements for retirement in a TMRS city, he or she is eligible in other TMRS cities as well.

At the December 31, 2016 valuation and measurement date, the following numbers of employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	13
Inactive employees entitled to but not yet receiving benefits	67
Active employees	144
Total	224

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

Employees for the Town were required to contribute 7% of their annual gross earnings during the fiscal year. The Town did not change its employee contribution rate during the year. The contribution rates for the Town were 11.68% and 12.37% in calendar years 2015 and 2016, respectively. The Town's contributions to TMRS for the year ended September 30, 2017, were \$1,141,217, and were equal to the required contributions.

Net Pension Liability

The Town's Net Pension Liability (NPL) was measured as of December 31, 2016, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

The Total Pension Liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Overall payroll growth	3.00% per year
Investment Rate of Return	6.75% net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the Gender-distinct RP2000 Combined Healthy Mortality Table with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the Gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2016, valuation were based on the results of actuarial experience studies performed by TMRS. The most recent experience study was for the period January 1, 2010 through December 31, 2014, first used in the December 31, 2015 valuation. As a result of this study, several assumption changes were adopted, including a reduction of the inflation assumption from 3.00% to 2.50% and the investment return assumption from 7.00% to 6.75%. Assumptions are reviewed annually. No other significant changes were made for the actuarial valuation performed on December 31, 2015.

The long-term expected rate of return on pension plan investments is 6.75%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	17.50%	4.55%
International Equity	17.50%	6.10%
Core Fixed Income	10.00%	1.00%
Non-Core Fixed Income	20.00%	3.65%
Real Return	10.00%	4.03%
Real Estate	10.00%	5.00%
Absolute Return	10.00%	4.00%
Private Equity	5.00%	8.00%
Total	<u>100.00%</u>	

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension Liability are summarized in the following table:

	Increase (Decrease)		
	Total Pension Liability (a)	Plan	
		Fiduciary Net Position (b)	Net Pension Liability/(Asset) (a) - (b)
Balance at 12/31/2015	\$ 12,144,331	\$ 9,610,606	\$ 2,533,725
Changes for the year:			
Service Cost	1,719,445	-	1,719,445
Interest	874,511	-	874,511
Changes of benefit terms	-	-	-
Difference between expected and actual experience	(103,100)	-	(103,100)
Changes of assumptions	-	-	-
Contributions - employer	-	1,101,478	(1,101,478)
Contributions - employee	-	623,310	(623,310)
Net investment income	-	650,853	(650,853)
Benefit payments, including refunds of employee contributions	(96,666)	(96,666)	-
Administrative expense	-	(7,335)	7,335
Other changes	-	(397)	397
Net changes	2,394,190	2,271,243	122,947
Balance at 12/31/2016	<u>\$ 14,538,521</u>	<u>\$ 11,881,849</u>	<u>\$ 2,656,672</u>

The following presents the net pension liability of the Town, calculated using the discount rate of 6.75%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1% Decrease in Discount Rate (5.75%)	Discount Rate (6.75%)	1% Increase in Discount Rate (7.75%)
Town's net pension liability	\$ 5,675,645	\$ 2,656,672	\$ 279,590

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained electronically at [www.TMRS.org](http://www.TMRS.org).

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2017, the Town recognized pension expense of \$1,465,698.

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

At September 30, 2017, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 186,885	\$ 157,289
Changes in actuarial assumptions	-	10,166
Difference between projected and actual investment earnings	372,285	1,710
Contributions subsequent to the measurement date	1,141,217	-
Total	\$ 1,700,387	\$ 169,165

The \$1,141,217 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended September 30,	
2018	\$ 136,038
2019	136,036
2020	118,961
2021	6,248
2022	8,696
Thereafter	(15,974)
Total	\$ 390,005

**Note 13: Tax Abatements and Economic Incentives**

The Town enters into economic development agreements designed to promote development and redevelopment within the Town, spur economic improvement, stimulate commercial activity, generate additional sales tax and enhance the property tax base and economic vitality of the Town. These programs abate or rebate property tax and sales tax, and include incentive payments and reductions in fees that are not tied to taxes. The Town's economic development agreements are authorized under Chapter 380 of the Texas Local Government Code and Chapter 311 (Tax Increment Financing Act) of the Texas Tax Code. Recipients may be eligible to receive economic assistance based on the employment impact, economic impact, or community impact of the project requesting assistance. Recipients receiving assistance generally commit to building or remodeling real property and related infrastructure, expanding operations, or bringing targeted businesses to the Town.

General Economic Development – The Town has entered into various agreements that may rebate a flat amount or percentage of property taxes or sales tax received by the Town, may result in fee reductions such as impact fees or other expenses. For fiscal year 2017, the Town rebated \$107,700 in taxes, and reduced fees by \$2,714,187 under these agreements.

**TOWN OF PROSPER, TEXAS**  
Notes to the Financial Statements  
For the Year Ended September 30, 2017

Tax Increment Reinvestment Zone – The Town has established two tax increment reinvestment zone (TIRZ) districts under Chapter 311, Texas Tax Code to promote local economic development and stimulate business and commercial activity within the Town and to develop and diversify the economy of the state by eliminating unemployment and underemployment and developing or expanding commerce in the state, including the enhancement of land and the Town. Each district has a base year, and incremental property tax revenues exceeding the base year amount are collected into a special revenue fund. Additionally, other taxing entities may participate in the TIRZ districts. Each participating entity’s governing body sets the percentage of increment that they will contribute to the TIRZ fund.

In December 2015, Town Council appointed a TIRZ Board to approve final project and finance plan and to enter into a participation agreement that provides participation in the TIRZ. Unlike other contractual obligations, TIRZ grants are subject to availability of TIRZ funds, and any balance owed to a developer at the termination of the TIRZ district will no longer be considered an obligation of the City.

The following table summarizes key statistics of each of the Town’s TIRZ districts.

	<b>TIRZ NUMBER</b>	
	1	2
Tax Year Established	2008	2012
Town's Participation	100%	100%
Other Tax Entities	Collin County	Collin County
Participating	50%	50%
Tax Year Terminates	2045	2037

This agreement provides development of approximately 600 acres of land located in the Town of Prosper and known as the Gates of Prosper. This agreement provides for an economic development grant of \$58,000,000 plus 3.5% interest compounded annually until paid in full or termination of the agreement. Funding for this grant is contingent upon the availability of tax revenues and impact fee revenues in the TIRZ #1. Interest payments of \$383,092 and payment towards construction of \$792,914 were made during the fiscal year.

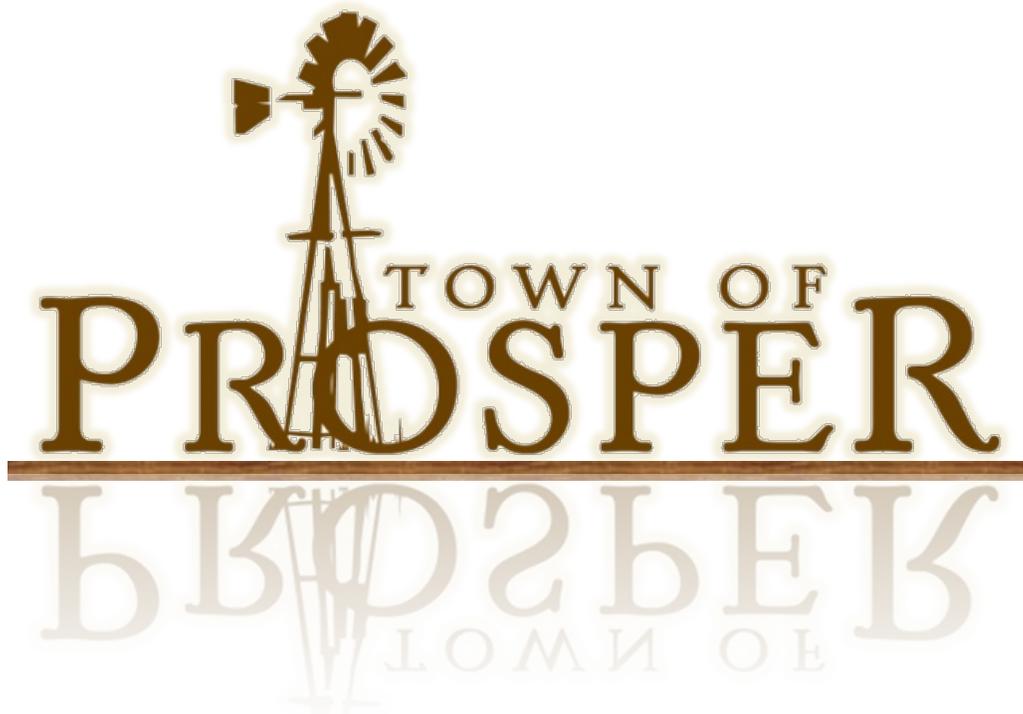

This agreement provides development of approximately 157 acres of land located in the Town of Prosper at the intersection of DNT and US Highway 380. This agreement provides for an economic development grant of \$44,199,000 plus 3.5% interest compounded annually until paid in full or termination of the agreement. Funding for this grant is contingent upon the availability of tax revenues and impact fee revenues in the TIRZ #1. Interest payments of \$0 and payment towards construction of \$153,629 were made during the fiscal year.

**Note 14: Commitments and Contingencies**

At September 30, 2017, the total estimated costs to complete significant construction projects in progress at year-end totaled approximately \$65,856,139 for the Capital Projects Fund.

**Note 15: Subsequent Events**

Management has evaluated subsequent events through March 9, 2018, the date the financial statements were available to be issued. No changes were made, or are necessary to be made, to the financial statements as a result of this evaluation.

**TOWN OF PROSPER, TEXAS**  
Notes to the Required Supplemental Information  
For the Year Ended September 30, 2017

**Note A: Budgetary Procedures**

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to August 16, the Town Manager submits to the Town Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. On the first meeting in September, the budget is legally enacted through the passage of an ordinance.
4. The Town Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revision that alters total expenditures of any fund must be approved by the Town Council.
5. Formal budgetary integration, using the modified accrual basis, is employed as a management control device during the year for the General Fund and Impact Fee Fund. Supplemental appropriations were made during the fiscal year for each of these funds.
6. The budgets approved for the Water and Sewer Fund and Stormwater Drainage Fund follow similar approval procedures but depart from accounting principles generally accepted in the United States of America by not including depreciation and amortization in the approved budget. The budgets are for operational purposes and have not been included in the financial statements.
7. The Debt Service and Impact Fee Funds have formal budgets and are controlled by contractual obligations approved at inception or as part of the General Fund on an annual basis. The Escrow Fund does not have a formally adopted budget and as a result a budget is not included in the financial statements. The Escrow Fund's activities are significantly impacted by Developer's decisions and the Town does not control those decisions which makes it difficult to budget accurately. The Capital Projects fund also has 5 year financial plan but not a formal budget. The remaining nonmajor governmental funds are budgeted and the budgetary results are reflected in the financial statements.

**Note B: Net Pension Liability – Texas Municipal Retirement System**

Assumptions

The following methods and assumptions were used to determine contribution rates:

<b>Valuation date</b>	Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.
<b>Actuarial cost method</b>	Entry Age Normal
<b>Amortization method</b>	Level Percentage of Payroll, Closed
<b>Remaining amortization period</b>	28 years
<b>Asset valuation method</b>	10 Year smoothed market; 15% soft corridor
<b>Inflation</b>	2.5%
<b>Salary increases</b>	3.50% to 10.50%, including inflation
<b>Investment rate of return</b>	6.75%

**Retirement age**

Experience-based table of rates that are specific to the Town's plan of benefits. Last updated for the 2015 valuation pursuant to an experience study of the period 2010-2014

**Mortality**

RP-2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB

Changes of Benefit Terms

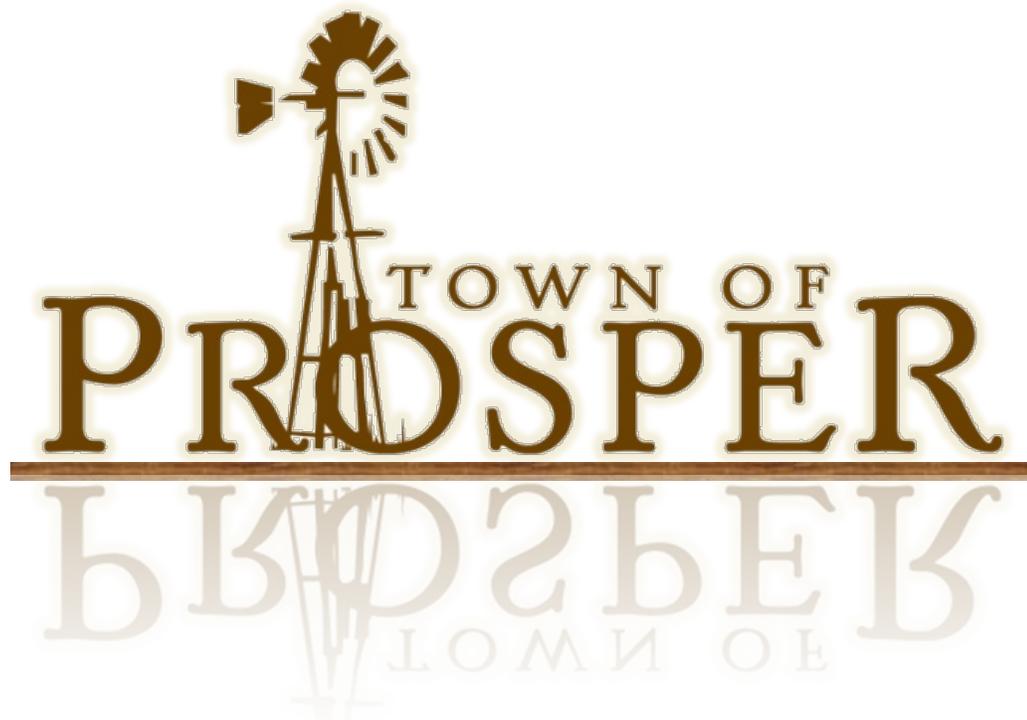

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes in the Size or Composition of the Population Covered by the Benefit Terms

There were no changes in the size or composition of the population covered by the benefit terms during the measurement period.

Changes of Assumptions

During the measurement period, the inflation assumption was reduced from 3.00% to 2.50% and the investment return assumption was reduced from 7.00% to 6.5%. Additionally, the range of assumed salary increases was changed from 3.50% - 12.00% to 3.50% - 10.50%, and the retirement age experienced-based table was updated based on a recent experience study.

Combining Financial Schedules  
For the Year Ended September 30, 2017

**NON-MAJOR GOVERNMENTAL FUNDS**

Special Revenue

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are normally restricted to expenditures for specified purposes.

*PROSPER CHRISTMAS FUND* - This fund was established to account for contributions received to the Town to provide an annual Christmas event.

*COURT TECHNOLOGY FUND* – This fund is to account for a misdemeanor offense to pay a technology fee of \$4 as technology cost of the court. These funds are used to finance the purchase of or to maintain technology enhancements for the municipal court for the following: computer systems, networks, hardware, and software; electronic kiosks; electronic ticket writers; and docket management systems.

*COURT SECURITY FUND* – This fund is to account for a misdemeanor offense to pay a \$3 security fee as a cost of the court. These funds are used to finance security personnel, services and items related to the facility that house the operations of the municipal court.

*ESCROW FUND* – This fund is to account for developer contributions that are held in escrow to fund back to developer once project has met the requirements as specified in the agreement approved by Council.

*PARKS DEDICATION FUND* – This fund is to account for contributions to the Town for the creation of parks within the Town per development agreements. Fund expenditures must be used for the acquisition, development, expansion or upgrading of parks located within the same park district or general area where the proposed development for which payment was made is located.

*PARKS IMPROVEMENT FUND* – This fund is to account for contributions to the Town for improvements to Town Parks per development agreements. To repay Developers for the reasonable costs of any park improvements constructed and accepted by the Town. For multifamily development projects and for complete phases of a single-family subdivision plat, the Developer may elect to apply the entire amount to be reimbursed under this Section as a credit against park fees due for the residential development; provided that the application of the credit does not result in a partial fee for any dwelling unit, in accordance with guidelines established by the Town. The Town shall retain sole discretion to determine whether to accept proposed park improvements.

*TIRZ 1 Fund* – In 2008 the Town designated a certain area of the Town as Tax Increment Reinvestment Zone Number 1. This fund accounts for the restricted revenue sources and reimbursements to the developer for agreed upon expenditures. The Council desires to promote the development or redevelopment of the geographic area by providing the designation of a reinvestment zone.

*TIRZ 2 Fund* – In 2013 the Town designated an area with the Town as Tax Increment Reinvestment Zone Number 2. Similar to TIRZ 1 the Town as authorized by the Tax Increment Financing Act, Chapter 311 of the Texas Tax Code this geographic area is be utilized to promote development or redevelopment of the area.

*CONTRIBUTIONS FUND* – This fund is to account for various special revenue sources. Typical revenues seen in this fund would include Police department donations, Fire department donations, Police Seized funds, Child Safety funds, and developer contributions.

*ECONOMIC DEVELOPMENT CORPORATION* – On May 6, 1995, Town of Prosper voters approved the 4A Sales Tax proposition which increased the sales and use tax by ½ of the 1% for the promotion and development of new and expanded business enterprises. The Corporation is town-chartered and governed by a 7-member Board of Directors appointed by the Town Council. 4A eligible projects include land, buildings, equipment, facilities, improvements, and expenditures related to: light manufacturing, R&D, recycling, small warehouse and corporate headquarters facilities and distribution centers; job training for primary jobs and commercial/retail; infrastructure assistance for commercial/retail projects; business-related sewer utilities and site improvements; business airport facilities and port-related facilities; and general airport facilities.

STATISTICAL  
SECTION

*This Page Intentionally Left Blank*

**TOWN OF PROSPER, TEXAS**  
Statistical Section (Unaudited)  
Year Ended September 30, 2017

This section of the Town of Prosper’s Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

<b>Contents</b>	<b>Page</b>
Financial Trends	68
These schedules contain trend information to help the reader understand how the Town’s financial performance and well-being have changed over time.	
Revenue Capacity	76
These schedules contain information to help the reader assess the Town’s most significant local revenue source, the property tax.	
Debt Capacity	81
These schedules present information to help the reader assess the affordability of the Town’s current levels of outstanding debt and the government’s ability to issue additional debt in the future.	
Demographic and Economic Information	85
These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town’s financial activities take place.	
Operating Information	87
These schedules contain service and infrastructure data to help the reader understand how the information in the Town’s financial report relates to the services the Town provides and the activities it performs.	

Source: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

**TOWN OF PROSPER, TEXAS**  
 Direct and Overlapping Governmental Activities Debt  
 As of September 30, 2017  
*(unaudited)*

<u>Governmental Unit</u>	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable<sup>1</sup></u>	<u>Estimated Share of Overlapping Debt</u>
Debt repaid with property taxes:			
Prosper Independent School District	\$ 446,148,641	68.66%	\$ 306,325,657
Collin County	448,071,721	2.11%	9,454,313
Collin College	22,040,248	2.11%	465,049
Denton County	645,305,000	0.23%	1,484,202
Subtotal - overlapping debt	<u>1,561,565,610</u>		<u>317,729,221</u>
Town of Prosper direct debt	\$ 58,920,987	100%	<u>58,920,987</u>
Total direct and overlapping debt			<u><u>\$ 376,650,208</u></u>

Source: Entity adopted budget. Actual amounts of overlapping debt vary based on entity payment schedules and any new issuances.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Town of Prosper. This process recognizes that, when considering the Town's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

<sup>1</sup>The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the Town's taxable assessed value that is within the Town's boundaries and dividing it by the Town's total taxable assessed value.
